## Name:

## Section 2.2 - Proficiency Check

Simplify the following Radicals:

| Emerging | Proficient | Extending |
| :---: | :---: | :---: |
| $\sqrt{108}$ | $\sqrt[3]{432}$ | $\sqrt{294 x^{5} y^{3}}$ |
|  |  |  |
|  |  |  |

Multiply and then Simplify if possible:

| Emerging | Proficient | Extending |
| :---: | :---: | :---: |
| $\sqrt{2} \cdot \sqrt{6}$ | $\sqrt{15} \cdot \sqrt{21} \cdot \sqrt{70}$ | $\sqrt[3]{12 x} \cdot \sqrt[3]{18 x}$ |
|  |  |  |

Write as Entire Radicals

| Emerging | Proficient | Extending |
| :---: | :---: | :---: |
| $2 \sqrt{5}$ | $-4 x y^{2} \sqrt[3]{3 x y^{2}}$ | $-6 x^{2} y^{3} \sqrt{21 x y z^{2}}$ |

How would you rate your level of understanding?
Emerging Proficient Extending
Explain your rationale.
