

Proficiency Check 7.1 – Slope Part 2

Perform the following operations and write the answer in Descending Order.

Emerging	Emerging
<p>1. Write the equation of a line with Slope: $-\frac{2}{5}$ and y – <i>intercet</i>: $(0, 6)$</p>	<p>2. Write the equation of the line below.</p> 
Proficient	Proficient
<p>3. What is the equation of the following line.</p> 	<p>4. Graph the given line.</p> $y = \frac{1}{2}x - 6$ 

Proficient	Proficient
<p>5. Graph the following line:</p> $y = -\frac{4}{7}x + 2$ 	<p>6. Graph the following line:</p> $y = -\frac{5}{9}x - 2$ 
Proficient	Proficient
<p>7. Graph the following line:</p> $y = 2x$ 	<p>8. Graph the following line:</p> $y = \frac{6}{5}x - 7$
